

SD37 - Delta Wireframes

MODIFICATION DATE Tue Jul 15 2008
CREATOR Susan
ImageX Media

The wireframe shows a top navigation bar with 'Home' and 'Login' links, and a search box. Below is the 'SD37 Logo' and the tagline 'Where Learning Matters'. A main navigation menu includes 'About SD37', 'Schools', 'Programs', 'Community', 'Student Resources', and 'Contact'. The 'Programs' menu is expanded to show 'Academic', 'Continuing Education', 'International', 'Special Programs', and 'Curricular'. A large rotating flash banner (2) contains placeholder text and a 'rotating flash banner' label. Below the banner is a 'Welcome' section (3) with a list of links: 'School Locator', 'Enrollment', 'School Calendar', 'Board of Education', and 'Give to Delta School District'. To the right is a 'Featured Story' section (6) with a placeholder image and a 'Learn More' link. Further right is a 'Latest News' section (7) with three news items and a 'More News' link. Below that is a 'Community Events' section (8) with three event items and a 'More Events' link. At the bottom right is a 'Poll' section (9) with three options and a 'Vote' button. The footer (10) contains 'FAQs', 'Employment', 'Terms of Use', and 'Sitemap' links, along with contact information for Delta School District.

- 1 Global Navigation**

This top navigation will appear on every page of the site. A mouse over on any of the menu items will provide feedback that you are accessing that item and if there are pages underneath, a drop down menu will appear. The drop down menus will allow the site to grow over time. It will also allow visitors to browse to any page on the site with one click.
- 2 Rotating Flash Banner**

The rotating banner will automatically rotate through all 6 banners and wrap around. There will be feedback to show the user which banner is currently being displayed. The user will also be able to select which banner to view and will be able to stop/start the flash at any time. The administrator will be able to set the speed of the rotation. The banners will have messages for the sections "International," "Continuing Education," "Sports Academies" and then a few generic messages similar to what the SD45 site (www.sd45.bc.ca) has done with their "happy summer" message. Links on each of those banners will take visitors to other pages on the site.
- 3 Welcome Text**

This block is for the welcome text (Superintendent's welcome message). Notice, for welcome text, it should be very brief. Visitors who want to read more can click on the "More" link and that will bring them to the About main page.
- 4 (Quick Links)**

This section under the Welcome block will feature a few links from within the site you believe are really important and that many visitors would be looking for. The links listed are just a few possibilities.
- 5 MDR Buttons**

The most desired response buttons will contain graphical elements that lead you to those pages. Because they will be eye-catching, visitors will be drawn to click on them. Currently, we have International Program, Continuing Education, and Academies as MDR buttons. These same buttons will also be featured on other pages on the site, where appropriate.
- 6 Featured Story**

The featured story will be easily updateable. It will also be very easy to promote other stories to the front page in place of this one. The story will contain a thumbnail, clickable title, teaser text, and a "Learn More" link, which will lead the visitor to that particular story page.
- 7 Latest News**

This block will automatically feature 3 of the latest news. They will be sorted chronologically. The "More News" link will take the visitor to the "News" main page.
- 8 Community Events**

This will be an event listing of all the things going on in the Delta community such as hockey game announcements. They will be sorted chronologically. The "More Events" link will take the visitor to the "Community Events" main page.
- 9 Poll**

It will be easy to update the polls or feature any particular poll on the front page. Once a visitor votes once, he or she will not be able to vote again.
- 10 Footer**

The footer links and contact information will appear at the bottom on every page of the site.

640px Fold Line

General Notes

- The frames around each block is only drawn to indicate where that block is positioned and will give you an idea of how much space it could occupy on the page. The design may or may not contain these frames.
- boxes with a "X" in them are images or large graphics
- All blue text are links on the page.

- 1 Local Navigation**

Depending on where you are on in the site, the local navigation menu will show you the other items underneath that menu item. For instance, this page shows that we are on the "Schools" section and all the school sub menu items fall under it. As long as you stay within the "Schools" section, this local menu will appear on the left. The current page will also be highlighted for feedback. Visitors can also get to sub pages by using the drop down menu as described in the previous page.
- 2 Breadcrumb**

The "breadcrumb" will show you where you are on the site. In this example, you are on the "Schools" page underneath "Home." You can click on any of those levels to go back a step or 2.
- 3 Main Content**

This will be the landing page for "Schools." All the schools will be listed here and each school will be a link to view more details. This page will be automatically populated by the database from the "Location Listing System."
- 4 Print**

This link will allow the user to print a "printer-friendly" version of the page he or she is on. It will be present on all content pages. The icon seen here is only a placeholder.
- 5 View Map for Catchment Areas**

This will be the link to the map page we quoted for under "Location Maps." It will resemble a page similar to <http://campusfire.com/schools>
- 6 Related Links**

All the related and useful links for the visitor on this page can also be listed here. Note, this block will need to be manually populated with content. There will be no system built for this. This is just suggested content.

1 Main Content

All school pages will be laid out in this order. If a certain section is missing, it will not be displayed at all. The website address to that particular school is located at the very top, followed by an image of the school and its address info. Note, this layout only allows for the placement of one image per school. The other blocks are clearly labeled.

2 View Street Map

This map will display a targeted region from the Google Location Map for the catchment areas so that the visitor will be able to see exactly where K-7 Brooke Elementary School is.

1 Mathematics

The British Columbia Mathematics curriculum includes the same strands from kindergarten to grade 12:

- Numbers (concepts and operations)
- Patterns and Relations
- Shape and Space (measurement, 3D objects, 2D shapes and transformations)
- Statistics and Probability (data analysis and chance and uncertainty)

Besides content, the curriculum focuses on developing positive attitudes towards mathematics, problem solving and estimating skills, mathematical reasoning and communication, and developing the ability to apply mathematical learning to real-life situations.

- 1 (Language Selector)**
The drop down box will be available on every page at the top and allow the user to toggle between the different language sites. The listing will be written in their language alphabet using their unicode conversions rather than images, if possible. The drop box will appear below when the user clicks on "English" or the arrow next to it, much like what is done on <http://www.facebook.com/>
- 2 (Main Landing Pages)**
The landing pages for Continuing Education and Academies will also follow this layout. If a different logo exists, it will be featured. The language selector at the top will only exist on the International Student Program pages.

General Notes

- The frames around each block is only drawn to indicate where that block is positioned and will give you an idea of how much space it could occupy on the page. The design may or may not contain these frames.
- boxes with a "X" in them are images or large graphics
- All blue text are links on the page.
